

6516209211.txt

I have been listening to XM Radio for two years now and do not support the NAB's efforts to limit XM Radio's ability to provide locally oriented content including XM Instant Traffic and weather channels. Since I pay for the privilege of having XM Satellite Radio in my car and home, it should not be left up to th NAB to dictate to me what I am permitted to hear. This is a question of consumer choice and limits my freedoms under the First Amendment.

I urge the FCC to reject the NAB's petition 04-160 especially because XM Radio is a service that is not free and I pay for this subscription every month. I don't think that any satellite radio service that one pays for should be dictated to by the NAB.

Sincerely'
Charles Marshall
